A creative and passionate Front-end Developer dedicated to crafting beautiful and functional websites. With a keen eye for design and a deep understanding of the latest technologies, I transform ideas into simple, clean, and user-friendly websites that stand out and provide seamless user experiences. I excel in HTML, CSS, JavaScript, and modern frameworks like React, ensuring responsive and interactive designs. My strong problem-solving skills and attention to detail allow me to deliver high-quality projects. I thrive in collaborative environments and I am committed to continuous learning and professional growth.

Projects

● Weather App

Developed a real-time weather application that fetches and displays current weather data using an external API.

URL: weather-app-psi-fawn-98.vercel.app

Technologies: HTML, CSS, JavaScript, OpenWeather API.

Key Features:

- Dynamic data fetching and real-time updates.
- Interactive user interface with search functionality for different locations.

● Flone

Created a sleek and modern e-commerce platform named Flone Omega, designed to provide a seamless shopping experience for users.

URL: <https://flone-omega.vercel.app/>

Technologies: React.js, Bootstrap, Sass, Rest API.

Key Features:

- Advanced search and filter functionality to help users find products quickly.
- Integration with backend services for inventory management and order processing.
- Secure checkout process with multiple payment options for customer convenience.

● Furns

Conceptualized and designed an e-commerce platform focused on delivering a visually appealing and user-friendly experience for furniture enthusiasts.

URL: <https://furns-two.vercel.app/>

Technologies: React.js, Bootstrap, Sass.

Key Features:

- Engaging user interactions like buttons and sliders.
- Seamless animations for enhanced UI.

● Riyaqas

Designed and developed a personal portfolio website to showcase projects, skills, and experiences in web development and design.

URL: <https://riyaqas.vercel.app/>

Technologies: HTML5, CSS3, JavaScript

Key Features:

- Presented a curated selection of projects with detailed descriptions and live links.
- Implemented an interactive contact form for inquiries and networking opportunities.
